Dear Friend,

Most Whites are now becoming aware of the erosion of their basic civil rights through programs such as affirmative action and minority set-asides, but few are fully aware of the cultural attack Whites have suffered. If someone dares to speak about the great wave of Black crime that is brutalizing and terrorizing our major cities, he is immediately chastised as "racist". Yet, Blacks chant a never-ending litany of White oppression, slavery, and mis-treatment. It has gotten to the point that now in school textbooks, the words "Black race" or "Black people" are always used in a sympathetic or positive context. If the words "White" or "White race"are used, it is always used in pejorative sense. One hears of great Black acheivements, contributions and leaders, while one hears of White "oppression, slavery and discrimination."

Now, even our historical monuments are being torn down and carted away because they don't conform to the new lexicon of Black political power. In New Orleans there is a monument at the base of it s main street. It is called the "Liberty Monument" and it was erected in memory of the men who died fighting to overthrow an unelected, tyrannical Re-construction Government in Louisiana. The past and current Black administration has been endeavoring to quietly remove the obelisk and destroy it along with the true history of the city. The NAAWP learned of the planned distruction and organized a campaign to protect the monument. In my legislative capacty, my assistants and I contacted the appropriate agencies both state and national. Ultimately, we forced the city administration to sign an agreement with the state of Loiuisiana to restore the Liberty Monument upon the completion of the street work that is now being done in the area. We won a real victory which shows what can be accomplished by organization and activism.

There is so much to be done in America. Affirmative action must be ended, freedom of choice must return to our schools, welfare must be made contingent on birth control, immigration must be stopped, and society must again be oriented to excellence and beauty in all things. If we don't make the changes just outlined, we have no future other than the present dark reality of the Third World.

Please make it a point to help the NAAWP in this Christmas Season. Your gift to this Movement is in reality the greatest gift you could give to those you love, because without our victory in the future, they and their children cannot be safe and secure.

And, let me take this opportunity to thank you from the bottom of my heart for all the wonderful support you have given me as your NAAWP President in all the past years and in this history making year of 1989, one in which we have accomplished so much.

I am looking forward to hearing from you over the holidays.

Sincerely,

David Duke
